Create Your Own Word Search
Use the attached grid or draw your own

1. Choose up to 15 words you would like to be in your word search. You can make it themed if you choose. Examples: summer, sports, animals, places, Disney.
2. Write your words anywhere in the grid and in the spaces below. Remember that you can write them in all directions: vertical, horizontal, and diagonal.
3. Once you have all your words in the grid, fill in the rest of the spaces with random letters.
4. Challenge a parent, caregiver, nurse, child life specialist or friend to find your words!
