Rockin' Snail

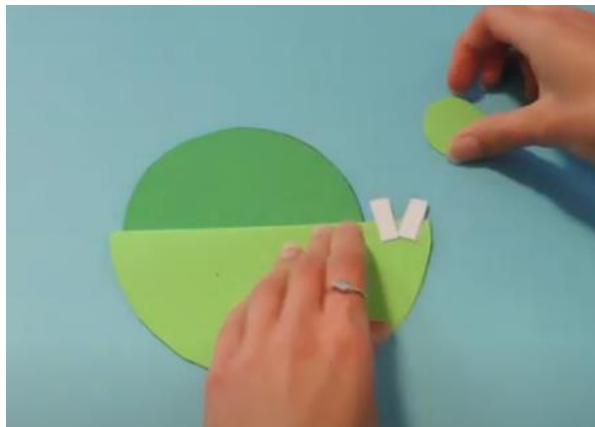

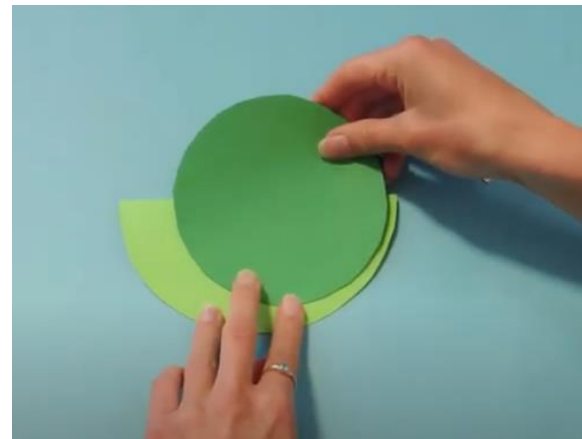

Supplies: Markers or Crayons, Scissors, Paper, Glue

Step 1: Cut a large circle for the body, a medium circle for the shell, two small circles for the snail's eyes, and two small rectangles to attach the eyes to the head. Use a cup or something circular to trace the body and eyes! 

Step 2: Fold the largest circle in half. 

Step 3: Glue the medium sized circle to one side of the folded large circle. 

Step 4: Glue on the snail's eyes. Start with the two small rectangular pieces, glue them to the back of the snail's head. Then flip the snail over and glue both of the small circles onto the snail.  

Step 5: Draw on the eyes and smile. 

Step 6: Now it's time to decorate! Use glitter, crayons, tissues paper, feathers, or whatever you have to decorate your snail's shell!
