Camp at Home

The summer was colder way when school was closed. They played at the skate park and watched the sharks at the aquarium. They enjoyed visiting the Discovery Center and the Children's Museum. They went camping and explored the local hiking trails.

Even though the summer was shorter, they still had fun. They played video games, read books, and played outside. They learned new skills and made new friends. They were excited to go back to school.

The end of the summer brought a new beginning. They were ready to learn and explore. They were happy to see their friends again.

The end of the summer brought a new beginning. They were ready to learn and explore. They were happy to see their friends again.

CAMP IMAGINED AT HOME!

The Weather is Rainy in Maine

The weather was not as expected. It was supposed to be sunny and warm. Instead, it rained all day. They stayed inside and played board games. They enjoyed the cozy atmosphere. They were happy to be together.

---

The Great White Shark in Maine

The Great White Shark is a New Species!

They learned about a new species of shark that was recently discovered. It was a new species of Great White Shark. They were excited to learn more about it.

---

Output Devices

They learned how to use different output devices. They learned how to use a computer, a printer, and a scanner. They were happy to learn about these new technologies.

---

Special Thanks

They thanked everyone for supporting their camp. They were happy to be able to continue the magic of camp. They were excited to see everyone again.

---

Imagine Virtual K!

They are planning to launch a virtual camp next year. They are excited to continue the magic of camp in a new way. They are looking forward to seeing everyone again.
