

TURTLE PILLOW INSTRUCTIONS

60" Fabric, Use ¾ Yds.

36" Fabric, Use 1-2/3 Yds.

45" Fabric, Use 1-1/3 Yds.

Fabric Required: Use soft, colorful fabric like that used for quilts.

See diagrams on left for widths and amounts

1. Cutting Instructions

- Cut 2 main bodies creating pieces "A" and "B".
- Cut the center out of "B".
- Cut 2 ovals creating "D" pieces. Cut the center out of one "D" piece. Use this cut out "small oval" piece for Piece "C".

Tip: After all pieces are cut out, discard the center ovals to ensure those small pieces are not used. You will be left with four pieces to sew together: a solid body piece, a body piece with a center cutout (hole), a large solid oval shell, and an oval shell piece with a center cutout (hole).

2. Mark dots on "B", "C" and "D".

3. With right sides together (matching dots) sew the "D" pieces together on outer edge with ¼ inch seam. Turn, press and tip stitch a ¼ inch from the seam just sewn.

4. Lay the completed piece "D" over the front of piece "B" (matching dots). Sew the three edges together around the oval opening with a basting stitch. This creates a unified piece, which is easier to work with, in the next step.

5. Lay piece "C" face down inside the unified "B/D" piece, which is also lying face down. Pull up the oval edges to match the front sides of the material, matching the dots. Pin. Ease fabric in by pulling and gathering the basting stitch. Sew a ¼ inch seam.

6. Now you have a completed top for the turtle, which can be seamed onto the underside of the turtle, piece "A", using a ¼ inch seam allowance. Leave an opening on the one side for turning and later stuffing.

Helpful Tips:

- Please do not enlarge or reduce the pattern, so that every camper can receive the same size pillow.
- Please leave all pillows **UNSTUFFED**, there is limited storage space at Camp
